

Thought on Membership Levels

Draft memo

June 2022
Karl W. Palachuk

The old Membership Committee discussed member programs, but did not define a specific program for 2023. To my knowledge, they did agree on the following:

- There should be two types of membership
 - Company
 - Individual
- Company members will have one “vote” in elections and are able to have one designated employee
- Individual members may associate their membership with a Company member, but this is not required
